IS REALLY
GONE TO
END...

A black and white illustration depicting a crowd of people in the foreground, seen from behind, looking up at a city skyline. The city features a prominent, ornate building with many windows and spires. Large, brilliant fireworks are exploding in the sky above the city, creating a dramatic and celebratory atmosphere. The crowd includes people of various ages, some holding up devices to capture the scene.

II In this chapter you will see what all things change languages but that's the point, they happen to be like that. We're not responsible for them. It's on the language and we don't want to change that. Just around you see a language and don't think it's too much. You are not supposed to. I'd. Nevertheless you can read them, just pretend you don't. I'd. Don't read as my own parts about them. Leave them to, I'd.
